

TRAINING OVERVIEW

SAFe PO/PM

2 DAYS TRAINING

Certification

SAFe Product Owner/Product Manager

Venue: Virtual or In Person training

Course Overview

What skills do you need to deliver value in an Agile enterprise? The SAFe® Product Owner and SAFe® Product Manager (POPM) course covers the tactical responsibilities of these roles in the Agile Release Train (ART). The course and resulting certification give you the guidance and tools to work effectively in remote environments with distributed teams.

What You Will Learn

- How to perform the role of a PO and a PM on a daily basis
- How to collaborate with Agile teams to forecast work
- How to decompose Epics to Features and Features to Stories
- How to prepare for and lead PI Planning
- How to put the customer at the center of your design, build, and test process

SAFe® PO/PM answers the questions:

- How do POs and PMs plan and execute work during a PI?
- How do I integrate a customer-centric mindset to deliver products customers want?
- How do you connect SAFe Lean-Agile principles and values to the PO/PM roles?

What's included

- Course workbook and SAFe Studio access to help you prepare to take the certification exam, claim your digital badge, and tools to get started in your SAFe role
- Remote learning via SAFe® Virtual Classrooms
- One-year membership to SAFe Studio with your first class attendance
- Product Management Video playlist and customer research tools to support product owners in their role
- Platform access to e-learning modules and curated members-only content to support your SAFe transformation
- Member discussion forms to engage in ongoing conversations on the SAFe framework or how to better perform as part of an Agile Team
- Curated content-playlists based on your interests and roles, including templated resources and facilitation guides to get you started
- Access to content, tools, and resources you need to practice SAFe every day
- SAFe Product Owner/Product Manager certification exam
